**Summary** — Motivated MERN Stack Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js through projects and training. Skilled in building responsive web apps, creating RESTful APIs, and using GitHub for version control. Familiar with Jira and agile workflows. Ready to contribute technical skills and innovative solutions to a development team.

#### Skills

#### **Technical Skills:**

JavaScript, TypeScript, Python, React. js, Node. js, Express. js, MongoDB, MySQL, GitHub, Jira, Figma, canva

# **Experience**

## **SinQlarity**

Trainee June 2025 - Sep 2025 · 3 month Remote

Gained hands-on skills in Full-Stack Web Development (MERN Stack), GitHub collaboration, and Jira-based agile project management through real-world projects.

#### **Education**

# Bachelor of Technology (B.Tech) in Electrical and Electronics Engineering (2022-2025)

Rameshwaram Institute of Technology and Management, Lucknow

CGPA: 7.55

.Gaining strong foundation in electrical machines, power systems, control systems, and electronics.

- .Hands-on experience with circuits, power quality analysis, and renewable energy systems.
- .Exposure to modern tools, simulation software, and practical lab-based learning.
- .Actively involved in projects, workshops, and technical training programs to enhance problem-solving and innovation skills

#### Diploma in Electrical Engineering (2019-2022)

RR Institute of Modern Polytechnic Lucknow

CGPA: 8.1

Gained practical knowledge through laboratory experiments, industrial training, and project work. Learned fundamentals of electrical design, maintenance, and troubleshooting of electrical equipment. Developed teamwork, problem-solving, and technical skills applicable in industrial and real-world applications.

# **Projects**

#### . Quiz Manager Application

- A MERN stack web application designed to streamline quiz creation and participation. The app allows users to create and manage quizzes, attempt exams, receive detailed reports, view leaderboards, and bookmark questions, offering a complete and interactive quiz management ecosystem.

### **Tic Tac Toe Game Application**

A React.js web application developed to play the classic Tic Tac Toe game. The app allows users to play against another player, provides a dynamic and interactive UI, and includes features such as turn-based gameplay, real-time updates, and winner detection, offering an engaging and responsive gaming experience.

## **Basic JavaScript Project**

A web application developed using HTML, CSS, and JavaScript to demonstrate fundamental front-end development skills. The project includes interactive UI elements, form handling, and dynamic content updates, providing hands-on experience in creating responsive and functional web pages.
